

Costs and Limitations

Medstreaming offers the All in One Medstreaming EMR platform in the following pricing models:

- Software as a Subscription (SaaS) – A subscription based solution that includes recurring monthly or annual subscription fees (technical assistance services are included within this fee).
- Software License –A license based solution that includes a one-time license fee and recurring monthly or annual technical assistance services fees.

The terms of Medstreaming’s SaaS or Software License agreements do not create any limitations on the implementation or use of certified capabilities.

Depending on the customer’s needs and requirements, they may incur additional costs for any services requested outside the scope of Medstreaming’s standard offering (such as additional implementation and training services, business analysis services, customization services, etc.)

All contract pricing is clearly identified on the customer’s initial order form to ensure clients understand the upfront and ongoing cost associated with the All in One Medstreaming EMR product and any third party vendors.

Our complete EHR solution will require the following additional third party components to run:

- Microsoft Server running Windows Server 2008 R2 or higher
- Microsoft Workstation running Windows 7 or higher
- Microsoft SQL relational database Version 2008 R2
- Microsoft Word and Excel Version 2007 or higher Professional
- HISP- Secure Exchange Solutions
- Krames portal for Patient education resources

Any additional costs that may be incurred for this certified product-version can be viewed below.
