Austin, TX 78750

December 3, 2024
Picis Clinical Solutions, Inc
Medstreaming Practice Suite

To Drummond Group:

The Mandatory Disclosure statement of costs and limitations for our certified product(s) is attached to this letter and will be posted along with the required product information on our website here:

<https://medstreaming.com/practice-suite-for-obls-and-ascs/>

We agree to notify Drummond Group of any and all future changes to our transparency and disclosures language for this certified product-version.

We understand and agree that the ONC Health IT Certification Program Final Rule statement gives Drummond Group, as an ONC-ACB, the sole responsibility for ensuring

compliance and determining appropriate consequences if EHR technology developers fail to divulge accurate transparency and disclosures information.

We understand and agree that we will provide to Drummond Group copies of or give access to any and all websites, marketing materials, communication statements, and other assertions made by your organization regarding the ONC certification status of this product in a reasonable time to ensure the transparency and disclosures information is being accurately disclosed.

Picis Clinical Solutions offers the Medstreaming Practice Suite EMR platform in the following pricing models:

-Software as a Subscription (SaaS) – A subscription-based solution that includes recurring monthly or annual subscription fees (technical assistance services are included within this fee). -Software License –A license-based solution that includes a one-time license fee and recurring monthly or annual technical assistance services fees.

The terms of Picis SaaS or Software License agreements do not create any limitations on the implementation or use of certified capabilities.

Depending on the customer's needs and requirements, they may incur additional costs for any services requested outside the scope of Picis standard offering (such as additional implementation and training services, business analysis services, customization services, etc.)

All contract pricing is clearly identified on the customer's initial order form to ensure clients understand the upfront and ongoing cost associated with the Medstreaming Practice Suite EMR product and any third party vendors.

Our complete EHR solution will require the following additional third party components to run:

- Microsoft Server running Windows Server 2019x64 or higher
- Microsoft Workstation running Win10 Pro x64 or higher
- Microsoft SQL relational database Version 2016 Standard or Higher, with sufficient CALs
- Microsoft Word and Excel Version 2019 or higher Professional
- SSL certificate with SHA2 & 512-bit encryption or higher
- HISP- Secure Exchange Solutions

Any additional costs that may be incurred for this certified product-version can be viewed below.

Costs and Considerations of Certified Health IT

Capability	Description of Capability	Costs or Fees Considerations: <i>Types of costs or fees that a user may be required to pay to purchase, license, implement, maintain, upgrade, use, or otherwise enable and support the use of the implementation or use of the capability -OR- in connection with the data generated in the course using the capability</i>	Contractual Considerations: <i>Considerations of a contractual nature (including developer policies and other business practices) that a user may encounter in the implementation or use of the capability -OR- in the connection with the data generated in the course of using the capability.</i>	Technical or Practical Considerations: <i>Considerations of a technical or practical nature that a user may encounter, which could affect the successful implementation, configuration, maintenance, support, or use of the capability - OR- influence the use, exchange, or portability of any data generated in the course of using the capability</i>
DIRECT Messaging	DIRECT capability allows users to send and receive information securely to/from other users of certified health IT systems. Associated criteria 170.315.b.1_XDR_Transitions_of_Care	Considerations of a technical or practical nature that a user Medstreaming works with a HISP, Secure exchange Solutions to provide this service. This involves an annual fee at organizational level. (Customer might incur an additional per provider fee if the customer decides to set up individual provider accounts)	"No"	<i>"No technical or practical Considerations"</i>
Transmission of data to immunization	Associated criteria 170.315.f.1_ImmunizationSubmission 170.315.f.2_SyndromicSurveillance	Depending on the third party (Immunization/public health/specialized registry), this certified product version may require one-time costs and/or re occurring costs to establish interfaces for reporting to immunization public health agencies or any specialized registry.	"No"	<i>"No technical or practical Considerations"</i>
Export of clinical summaries	Associated criteria 170.315.b.10_Data_Export	For exporting Medstreaming relied upon MeldRx 2.0 from Darena Solutions. (Customer might incur an additional cost based on nature of exporting the clinical data.)	"No"	<i>"No technical or practical Considerations"</i>
QRDA generation	Associated criteria 170.315.c.1- c.4_Clinical_Quality_Measures	No cost/fee	"No"	It is advised to export data as QRDA files after hours to ensure optimal system performance.
CPOE medications and Electronic prescriptions EPCS	Associated criteria 170.315.a.1_CPOE_Meds 170.315.b.3_E-Prescribing 21 CFR 1311	No cost/fee Medstreaming works with Surescripts for Rx routing. Medstreaming, currently, absorbs the cost for a 3rd party Rx database, and ICD10 dictionary. Medstreaming works with ID.ME for two-factor authorization for EPCS and absorbs the cost for a 3rd party set-up fee, however, there is an annual fee per physician and mid level.	"No"	<i>"No technical or practical Considerations"</i>
Electronic faxing	No associated criteria	Medstreaming works with a 3rd party cloud fax vendor. Customers need to sign up and there is a cost involved with that.	NA	NA
Lab Results Interface	No associated criteria	Medstreaming works with diagnostic labs and hospitals for lab results interface. There may additional costs for this interface depending on the 3rd party situation.	NA	NA
